What Are Your Drains Letting in?

- **Pests** that infect food supplies, guest rooms, dining areas, and common areas with bacteria
- **Viruses** and **Bacteria** that spread aerosol, foodborne and waterborne diseases like Covid-19
- **Sewage Odors** and **Backflow** that affects your reputation and supplies
- **Toxic Gasses** that put guest and staff at risk
- **Hygiene** and **Sanitation Risks** costing money and liability exposure

The Green Drain Advantage:

- Proactive protection from all Sewer Contaminants
- Allows Installment or Removal by anyone in seconds
- Boosts facility sustainability, requires Zero water or harsh chemicals
- Maintenance-Free
- Saves you from unneeded repair and expenses
- Elevates Sanitation as a HACCP/NSF certified product
- Eliminates vulnerability from faulty P-trap
